Dear Ms Erdanela Setiawati,

Please, be informed that according to the review your paper requires some improvement:

1. The text is difficult to perceive since the absence of figures leaves some statements unsupported.
2. It is necessary to provide a clear table.
3. It is necessary to provide a schema of the chart
4. It is not clear from the text what the objective of the research is. It is necessary to single them out to show the actual influence.
5. Other notes are given in the attached text.

So that the editors can proceed with their work with the manuscript, please make the necessary changes until September 15, 2022

Best regards,
The editorial staff of The Seybold Report Journal

kepada saya ▾

Dear Ms. Erdanela Setiawati

I am sending the final version of the article for You to view before publication.

The only thing we also need is the contribution of the co-authors to be added at the end of it. You have 3 authors, so after each name you need to write what this person did (for example, set the goals, collected material, participated in field studies, performed tests, analyzed the data, prepared graphic material, wrote the text of the paper, edited the text of the report, etc.). You don't need to insert it into the article, write all the necessary information in an email and I will put it into the article myself.

Please, do it as soon as possible, as we need to publish everything this Monday.

Thank you very much!
